

ORANGE PEEL GRAPPLE

HOP (SEMI-CLOSED)

StEnSol 5-tine orange peel grapple with 0.4 - 0.8 m³ filling capacity.

StEnSol orange peel grapple have been specially developed for scrap handling. Their robust design ensures longevity of components.

The performance of the orange peel grapple is a result of our simple yet robust kinematics, high clamping forces and proper adaption of high pressures. The use of high-quality materials guarantees a long service life.

ORANGE PEEL GRAPPLE HOP (SEMI-CLOSED)

Type	Overall width (closed) A	Opening width B	Height (closed) C	Filling Capacity	Grapple tines	Grapple peak force	Load capacity	Weight with attachment (semi-closed)
HOP-400	1250mm	2050mm	1930mm	0.4 m³	5	1,336 kg-m	8298 kgs	1600 kgs
HOP-600	1400mm	2360mm	2080mm	0.6 m³	5	1,118 kg-m	8148 kgs	1755 kgs
HOP-800	1550mm	2515mm	2160mm	0.8 m³	5	1,025 kg-m	7968 kgs	1909 kgs

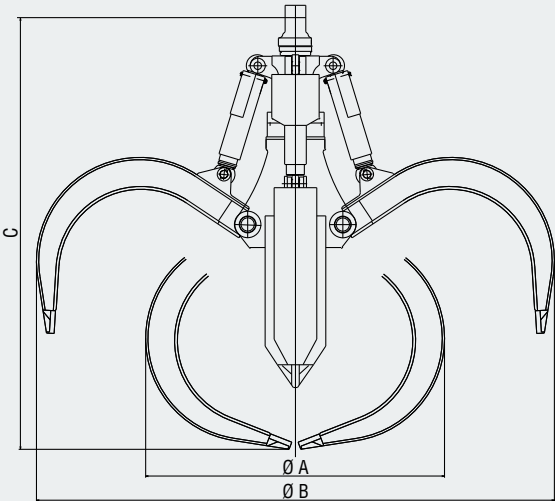

SCOPE OF DELIVERY

- Orange peel grapple
- Swing assembly
- 360 rotation with mounting pin
- Distribution Assy.

OPTIONAL

- Dipperstick pin
- Quick-attach mounting
- Hose kit
- Quick-closure coupling

i When choosing a grapple, remember to consider the individual load capacities of the respective machines.

ORANGE PEEL GRAPPLE
